DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. **As per claim 1 and dependent claims 2-15**, the examiner found no reference in the prior art that disclosed or made obvious a cooling system for a gantry of a computer tomography system with an X-ray source positioned on a gantry mounted for rotation around a rotation axis in a gantry housing which is mounted on a stationary part by at least one bearing allowing tilting of the gantry relative to the stationary part, the cooling system comprising a cooling gas supply device for directing a cooling gas flow in the region of the at least one bearing between the gantry housing and the stationary part, as recited in independent claim 1.
4. **As per claim 16**, the examiner found no reference in the prior art that disclosed or made obvious a computer tomography system comprising a gantry housing mounted in a stationary part by at least one bearing allowing tilting of the gantry relative to the stationary part and a cooling system including a cooling gas supply device for directing a cooling gas flow from a region of the at least one bearing between the stationary part and the gantry housing as recited in independent claim 16.
5. **As per claim 17 and dependent claims 18-22**, the examiner found no reference in the prior art that disclosed a method for cooling a gantry of a computer tomography system which has an X-ray source positioned on a gantry mounted for rotation around a rotation axis in a gantry housing which is mounted on a stationary part by at least one bearing allowing tilting of the gantry relative to the stationary part, the method comprising the step of creating a cooling gas
